

TIME TO FACE THE FUTURE

Good looks, durability and high performance – it's what every client desires. So when it comes to cladding the exterior elevations of your next new build development or refurbishment scheme, choose a system that's got it all.

Fusion Facades design and manufacture building envelope and rainscreen systems which interface efficiently with all of today's construction techniques. Available finishes range from metallic paneling to lightweight insulation boards, ceramic stone to extruded terracotta and of course clear and opaque glass. Whether you need to fit in with the local planning restrictions or you want to stand out from the crowd, there's a finishing detail to meet your design.

Our fully experienced, in-house technical team will coordinate with your design staff or sub contractors to ensure quality throughout the project.

Get the latest details on systems and service and discover engineered interface systems of a different standard.
